25 January 1982

MEMORANDUM FOR: Chief, Arms Control Intelligence Staff  
FROM: Director of Central Intelligence  
SUBJECT: Verification Thinking

Could you get me a paper bringing me up to date on verification thinking - capabilities, lost or eroded; capabilities in which there has been a loss of confidence by virtue of new attitudes and perceptions; new requirements arising from new problems by a cruise missile and chemical weapons; new potentials for camouflage or deception. It will be easy to discuss with people by putting it together in a paper.

*C*  
William J. Casey
